ISBN : 978-2-940393-97-8, 143 pages, format 114 x 183 mm

« Ecoutez-moi, vous tous, hommes et femmes : notre corps naturel est un monde en miniature, un palais construit avec cinq éléments, un temple ambulant, le *mantra* de Brahma. Il est vain de haïr le corps. Peut-on vénérer Dieu après avoir détruit son temple ? Veillez à la santé de ce sanctuaire de Dieu qui est la pierre angulaire de la vie. Un corps sain garantit une vie saine. Un arbre robuste donne des fruits succulents. Quand le corps se dégrade, la vie le fait aussi. Si le corps est affaibli, la lignée l'est aussi. Le corps est notre outil pour bien agir et trouver le bonheur pendant cette naissance-ci et la prochaine. Engagez-vous au service du corps comme au service de Dieu. »

Notre existence est une force d'âme incarnée dans la matière. On peut comparer la matière et l'âme à la carrosserie et au pilote d'une voiture. Le yoga va au plus profond de l'âme, ouvre les mystères intérieurs et libère la force divine de l'être mental et psychique. La science résout les problèmes extérieurs. Yoga et science édifient ensemble l'harmonie de la vie collective universelle. Nous voyons alors une nouvelle humanité transformée, nous entendons le cantique béni de la Paix pour tous, c'est le Sama Yoga.

Avant de se déverser dans l'océan, le fleuve arrose collines et vallons, passe par des niveaux fluctuants. La terre le vide ; le ciel le remplit. Les hommes, les animaux et les plantes y puisent chaque jour ; la pluie et les sources le remplissent. A travers plaines et plateaux, champs et prairies, villes et hameaux, il poursuit sa course en chantant « Je suis Aum ».

De même, le courant de la vie coule à travers diverses incarnations limitées pour se déverser dans la Béatitude infinie. Le passé est sa source, le présent son cours, l'avenir son but. La force spirituelle est sa ressource.

Calme, auguste, rayonnante, établie dans la paix du Soi, ancrée dans un silence créateur, la personnalité de Sri Aurobindo nous émerveille par chacun de ses aspects imposants.

« Toute vie, si nous regardons au-delà de ses apparences, est l'immense yoga que fait la nature, s'efforçant de se diriger vers la perfection par la réalisation progressive de ses potentialités ignorées et cherchant à s'unir avec sa propre essence divine. Toute existence, consciemment ou inconsciemment, est un Yoga ».

It admits the ideal of departure from Samsara into the Brahman as one possibility; also it offers the possibility of living free in the Divine (in me, it says) and acting in the world as the Jivan Mukta. It is the latter kind of solution on which it lays the greatest emphasis. Message of Sri Aurobindo.

The Grand Epic of Saivism is the rendering in English of the great work, popularly known as *Periya Puranam*. The name Peria Puranam, which was a hallowed name has lost, in the modern Tamil, its real meaning and it may suggest to the ordinary reader that it is a myth. But it is really an authentic record of the lives of sixty-three noble souls, of different ranks. Their common aim was to serve God and Godmen.

A study of the epic will reveal the thrilling sacrifice and devotion of these Godmen. Sacrifice or socialism about which there is too much of talk today had reached its zenith during the periods which the epic depicts. God never let down his devotees whenever they were in distress.

It is a poetic masterpiece written by Ilango Adigal almost 2,000 years ago but still relevant today. The main characters of this history are Kovalan, his wife Kannagi, and the dancer Madhavi. Before writing a synopsis of *Silappadikaram* entitled *Silambu Selvam*, Dr. Shuddhananda Bharati critically studied 150 works and thus developed a thorough understanding of the *Silappadikaram*. The explanation of Indian music, of the effects of musical vibration on the body and of the meaning of hand gestures during the dance form of Bharata Natyam make *Silambu Selvam* a very rich book.

A river floods through hills and rills and changing levels to pour itself into the ocean. It is emptied by the earth, but is replenished by heaven. Men, animals and plants use it daily; rains and springs fill it again. Through plains and plateaux, through fields and meadows, through cities and hamlets it sweeps on singing "I'm Aum." that pervades all beings and transcends all.

A hidden light smiles in every heart. We want peace and bliss and they are the very nature of our Soul. Yoga is right life, right movement. We live by the union of several elements and principles. The lungs breathe in union with the air; the lungs live in Yoga with the air. The heart beats in union with the blood; the heart lives in Yoga with the blood. Our body lives in union with the Pure Spirit and that in union with the Divine. This union is called Yoga.

Il Mahatma Ramalinga ha conosciuto gli aspetti di entrambe le forme visibile e non visibile di *Jyothi*, la Luce divina. Essa ha una forma, perché la si può sperimentare e vedere; al contempo, è anche priva di forma, perché non la si può sentire e può svanire. Il Mahatma Ramalinga ha ritenuto che la Verità eterna resti non rivelata e che sia *Jyothi*, la Luce infinita della Grazia, a provocare la rivelazione della Verità.

Il termine "Sadhana" significa sforzo, conseguimento di un obiettivo. È lo sforzo che si compie per trovare se stessi e raggiungere la perfezione dell'umano attraverso l'unione con il Divino. L'animo umano si fa strada attraverso le incognite del Destino e le vicissitudini della vita per arrivare a perdersi in un oceano assoluto di pace, beatitudine e verità.

Il fine delle acque è il mare. Il fine dell'Uomo è Dio.

In Form von Fragen des Schülers an den Lehrmeister, führt uns die *Erläuterung der Religion* auf dem spirituellen Weg der Harmonie und der Einheit. Diese Religion, die nicht „dieses ja, jenes nein“ verkündet, ist der reine Siddhanta, reines Yoga oder höchste Glückseligkeit. Sie hat die *Veden* zum Vater, die *Agamas* zur Mutter, und Yoga ist ihre Seele. Sie ist die älteste Religion der Welt. Dieser Weg ist gepflastert mit gutem Betragen, Anbetung von Gott, reines spirituelles Yoga und spirituelle Weisheit. Dieses Wort bezeichnet die vollbrachte Anstrengung zur Entdeckung seiner selbst und der Vervollkommnung des Menschen, und zwar durch die Verbindung mit Gott. Die Flüsse kämpfen sich in der Natur durch dick und dünn, bis sie sich in den weiten Ozean ergiessen. Die menschliche Seele kämpft, um die Hürden des Schicksals und die tausend und eine Schwierigkeiten des Lebens zu überwinden, bevor sie in den einzigartigen Ozean des Friedens, der Glückseligkeit und der Wahrheit gelangt. De term "Sadhana" betekent inspanning, de verwezenlijking van een doelstelling. Het is de moeite die het kost om jezelf te vinden en menselijke volmaaktheid te bereiken door middel van eenheid met het Goddelijke. De menselijke ziel maakt zijn weg door de onbekenden van Destiny en de wisselvalligheden van het leven te krijgen om te verdwalen in een oceaan van absolute rust, geluk en waarheid. Het uitzicht over het water is de zee. Het einde van de mens is God.
